

Herbal Supplement Liquid Detoxification Formula

High Frequency Wave Technology

Quantum science has gained great achievements during the past 100 years in scientific development. Three generations of scientists have won the Nobel Prize for their achievements in quantum science. In 1998, after 15 years of intensive investigation and exploration, Jin Yongsan, the renowned Chinese expert in the field of *quantum medicine investigation, invented the first herbal quantum medical preparation – **Herbal Supplement Liquid**. This unique process of magnetic herbal extraction is capable of moving out toxic scales from FIVE INTERNAL ORGANS simultaneously, in safe, rapid, and effective manner. It is praised as “the first herbal quantum prescription”.

*Quantum Medicine uses the principles of quantum physics such as non-locality, tangled hierarchy, and discontinuous leap in consciousness to better understand medicine.

Features:

1. **Hi-Tech** Herbal Supplement Liquid combines three cutting edge advanced technologies:

- a) Magnetized Energy Wave
- b) Ion Charging Technology,
- c) Carbon Dioxide Fluid Extraction Technology

2. **Effectiveness:** Instant results can be achieved from the very first time, and they can be detected visually, energetically, are medically.

- a) Visual: you can see the toxins with various colors and shapes same day you take the product.
- b) Energetic: you will feel relaxed and the appetite and sleep is improved after detoxification.
- c) Medical: detectable by medical tests - you will detect that the triglycerides, cholesterol, blood viscosity, and the blood uric acid will dramatically decrease on the day you take it. There will also be a significant reduction in the serum transaminase of the liver, and the low density lipoprotein(LDL) will return to the normal level in 7-15 days.

3. **Prolonged Action** After the detoxification process, the effect of Herbal Supplement Liquid will continue for another 90-120 days, improving the self-repairing mechanism and immune function in the body.

4. **Safe** After detoxification, the body's self-healing ability is dramatically enhanced. The individuals with moderate health condition can perform detoxification process once or twice a year. For more serious conditions, 1-4 times per year is sufficient (depending on the condition). The product has passed the safety test in Beijing Disease Prevention & Control Center and is proved to be absolutely safe and free of toxins and side effects. This product has a unique quality – it is cleansing and building at the same time. It is also very gentle and easy on the system and will not result in any discomfort or dehydration even after multiple bowel movements. Throughout the whole detoxification process the body is relaxed and comfortable.

Four Step Process

First Step The magnetic energy waves generate resonance, stripping off toxic deposits from the cell membranes

Second Step The ion channels are gradually permeated, and the herbal solution compounds rapidly enter the cells, infusing them with energy

Third Step The cells' inherent frequencies are gradually restored, and the toxic scale deposits on the cells' interior and exterior membranes are drawn away.

Fourth Step The magnetized waves continue to work for 120 days after the detoxification process.

High Frequency Waves Technology Explained

Quantum Detoxification Concept

Herbal Supplement Liquid detox formula is a high-tech achievement of quantization and initiates a grand new era of quantum detoxification. It presents a perfect marriage of cutting edge contemporary science, and a thousand years of traditional herbal medicine. It contains more than ten of the most powerful medicinal herbs, such as ginseng tuber, fleece flower root, cassia seed, black sesame seeds, radices puerarire and ginko leaf, among others. These herbs are then infused with High Frequency Waves that potentiate the formula many fold. That makes the Herbal Supplement Liquid capable of benefiting the body in many different ways:

1. **High Cellular Permeability** The unique magnetic extraction process makes the particles small enough to cross through the blood cell membrane, and enter into the cells of five internal organs and viscera directly. Expelled toxins are carried out by the blood stream into the liver, and through the hepatic duct, enter into the intestinal tract, and finally excreted out in the form of scales of various shapes and colors.
2. **High Frequency Energy Waves** Vibrating hundreds of million times per second, High Frequency Waves create a resonance with existing toxic scales, stripping them off the cell's membranes and expelling them out. This process is similar to ultrasonic a dental cleaning procedure or a ultrasonic clinical device used to remove kidney stones.
3. **Butterfly Effect** The quantization process can dramatically increase the potency of common

substance. This process called "The Butterfly Effect", when one cell can resonate and infuse other cells with desired frequency wave. It is this feature in the Herbal Supplement Liquid that produces such a powerful effect, in such a short time.

4. Circadian Bio-Rhythms Using DETOX Herbal Series Pack in accordance with biorhythm of the human body will maximize its efficiency (according to the human circadian rhythms (24 hour cycles). Herbal series only needs 2 days to do its miraculous work!

Five Elements, Five Organs, Five Toxins

Five Elements Theory is the basis of Traditional Medicine in all indigenous cultures. According to the Theory of Five Elements, each element represents a different organ in the body. Understanding the Five Elements opens the door to understanding bodily functions, and provide tools to promote health and wellness from within.

Five Organs Detox

Liver: Herbal Liquid detoxifies your Liver, enhancing its filtering ability, and producing a feeling of relaxation, ease, and positivity.

Heart: Herbal Liquid detoxifies your Heart, revitalizes the entire body and induces the feeling of peace.

Spleen/ Pancreas: Herbal Liquid detoxifies your Spleen/Pancreas, regulates appetite and smooth bowel movement.

Lungs: Herbal Liquid detoxifies your Lungs, alleviating all types of breathing difficulties.

Kidneys: Herbal Liquid detoxifies your Kidneys, recharges your body with energy and vitality, and induces a feeling of security and courage.

Understanding Excreted Toxins As five organs represent five elements in the body, every organ will expel toxins of different color.

Green toxins - come from liver

Red toxins - come from heart

White toxins - come from lungs

Yellow toxins - come from spleen/pancreases

Black/blue toxins - come from kidneys
